

Numeracy Project Workshop

The **Numeracy Project Workshop** is for K-12 teachers **who have been trained in the Numeracy Project** and would like further support in implementing their learning with students. This workshop will address common questions that have come from practitioners who have been using the Numeracy Project 2.0. We will also provide learning to assist teachers and coaches in planning for small group instruction along with suggestions for integrating progress monitoring.

Oct. 23, 2024
Adel Regional Office

602 Visions Parkway, Adel, IA

Session ID: 46463

Oct. 31, 2024
Johnston Regional Education Center

6500 Corporate Drive, Johnston, IA

[Registration](#)

Session ID: 46275

8:30 – 11:30 a.m.

Cost: \$75

Material fee: \$5

To prepare for the workshop

Bring student NII data to create a plan for small group instruction.

Objectives

Participants will:

- Have opportunities to learn strategies for supporting students who struggle with mathematics.
- Understand how skills from multiple stages can be connected and taught together.
- Explore how intentional selection of skill codes allows for differentiation opportunities.
