

School Counseling Supports

Through expert guidance, strategic planning and tailored solutions, we collaborate with school counselors to enhance their effectiveness, streamline processes and address unique challenges.

We offer insights into data-driven practices, best counseling approaches and compliance with state and national standards, helping districts/schools build a comprehensive counseling framework that fosters student well-being, growth and readiness for life beyond school.

Affordable

Through a cost sharing model, districts/schools access the benefits of supports without adding staff or committing to a full-time employee.

Custom Plans

Prior to starting the program, participating districts/schools select the total number of contractual days ranging from 10 to 170.

Embedded Support

Provide your team with individualized, ongoing support throughout the school year, helping them grow and reach their goals.
