

# WHAT IS System Implementation Support?

Our systems implementation support focuses on improving the coordinated capacity of groups of educators at the district or school level. We work to enhance implementation fidelity of evidence-based practices, as well as support and sustain system improvement efforts. We are able to provide tailored support and respond quickly to changing needs.

## Phases of Support

We will collaborate with the district, school or team to refine and set goals and work through the phases of implementation. Our purposeful actions during the **Exploration, Strategic Planning, Initial Implementation** and **Sustainability** stages will help foster your district/school improvement efforts.

## Potential Areas of Support:

- School improvement planning & implementation
- New staff onboarding
- Curriculum adoption
- Curriculum implementation
- Tier 1, Tier 2 or Tier 3 supports for academics and/or behavior
- Data-based decision making
- Building teacher leadership capacity
- Leadership Systems (TLC, PLC, CLC)
- Long-term professional development plan
- Support tailored to the individual needs of your district/school

### Affordable

Through a cost sharing model, districts/schools access the benefits of coaching without adding staff or committing to a full-time employee.

### Custom Planning

Prior to starting the program, participating districts/schools select the total number of contractual days ranging from 10 to 170.

### Embedded Support

Provide your team with individualized, ongoing support throughout the school year, helping them grow and reach their goals.
