What is a
District Technology Audit?

Our technology audit service provides a research-based evaluation of your district/school's current technology use. By identifying gaps, highlighting strengths and offering actionable insights, the audit empowers educational leaders to make informed decisions that enhance the learning experience for all students.

Daily Activities & Support

The audit, conducted by Heartland AEA instructional technology consultants, is customized to meet your district/school's unique needs and includes:

- **Project Management**: Meetings to plan, align and monitor progress
- **Technology Audit**: Walkthroughs, surveys and data dashboards
- **Audit Report:** Detailed findings and recommendations
- **Retrospective Meeting**: Stakeholder session to plan next steps
