# AI Readiness Support for Schools

Empowering Schools Around AI

Our AI Readiness Package equips schools with the policies, knowledge and tools needed to integrate artificial intelligence effectively and ethically into education.

Led by a Heartland AEA digital learning consultant, this package includes AI policy development, professional learning, student education and ongoing support.

Customized Support & Training

Our AI Readiness Package is designed to meet the unique needs of your district/school, including:

AI Policy Development

Collaborative work to help you establish clear AI guidelines and policies.

Professional Learning

Training on AI fundamentals, classroom applications and integration strategies.

Student Education

AI Passport modules teach students safe, effective and responsible AI use.

Follow-Up Support

Continued coaching, planning assistance and classroom guidance.
